Re: Updated Calendar for Weather Related Make-Up Days

The State of Indiana requires 180 student instructional days. Currently we have missed 3 days due to inclement weather. There are two days remaining on the calendar that lend themselves to scheduling Elearning days. We are going to utilize those two dates in this manner for two benefits. If there are no more cancellations, it keep us from being too close to graduation. If we do have more cancellations in our future, it leaves us a few more days to utilize before our scheduled graduation to meet the required 180.

The newly scheduled days are as follows:

February 18 (Presidents Day)-- Elearning Day

April 13 (Saturday) -- Elearning Day

April 19 (Good Friday)-- Elearning Day
